Juan Carlos Munguia
CONTINUOUS IMPROVEMENT CONSULTING

When the team already has the metrics, but not the results.

Lean Six Sigma and COPC-aligned Yellow, Green and Black Belt programs, applied to your real operation. Every program is led by a Lean Six Sigma Master Black Belt (PMP). Usually sponsored by operations, quality and process-excellence leaders.

Engineering the Business Experience. One of three standards: People, Customers and Business. The full menu is at jcmunguia.com.

CONTINUOUS IMPROVEMENT CONSULTING

3 · BUSINESS

When the team already has the metrics, but not the results.

Engineering the Business Experience

TEAM · 2 MONTHS Yellow Belt program — Diagnosis & roadmap

Up to 30 people · one contained problem: one KPI, one channel or one process

- Diagnosis using your own data, plus interviews with the team
- Process map, Pareto and root cause, applied to your KPI
- Prioritized 90-day plan with owners, and one quick win delivered
- Internal Yellow Belt certification for team leads and analysts
- One weekly session with you

DEPARTMENT · 4 MONTHS Green Belt program — Implementation

30 to 150 people · one or two processes, or a new channel

- Everything in the Yellow Belt program
- Quality framework aligned to COPC and ISO 9001 practices
- QA calibration, capability and control charts; a metrics dashboard with daily and weekly reviews
- Internal Green Belt certification: each participant leads a DMAIC project
- Fortnightly support through execution

ENTERPRISE · 6 MONTHS Black Belt program — Scale & sustain

More than 150 people · full accounts, sites or regions, shared services or BPO

- Everything above
- Strategy deployment linking yearly goals to projects and owners
- End-to-end operating model; QA with speech analytics and automation
- Your own Green Belt coaches; internal Black Belt certification
- Documented handover and close

If the system you already have has run for more than 6 months, the engagement is not extended. If a new tool or vendor is needed, the contract can extend to 12 months to cover procurement and implementation.

Three steps.

1. A 30-minute call, at no cost, to understand the problem.
2. Proposal within 5 business days: scope, deliverables, schedule and investment.
3. We start with the data and the tools you already have; I don't ask for new systems.

> If one is needed, it comes with a minimum of 3 to 6 months of implementation to align it, tune it and leave it under control, including my exit transition.

How we work.

Two-month renewable contract, with the package as the horizon and a maximum of twelve months per client.

Remote, with in-person sessions in Mexico City and the option of one week on site per month. Travel outside Mexico City at the client's request and expense.

Confidentiality in writing. Your operation's data doesn't leave and isn't used as an example without your permission. I work in Spanish and English.

Results guarantee. If we don't reach the goals set in your signed plan, within the plan's timeline, you get back all fees paid for the program. It applies when the conditions agreed in the plan are met: access to the data, your team's time and the actions agreed with owners. Full terms in each proposal.

Certifications are internal: they certify competence inside your organization and are not accredited third-party certifications. COPC® is a registered trademark of COPC Inc.; these programs follow practices aligned with its published CX Standard and do not grant COPC certification.

If after a year the operation still needs me, I didn't do my job.
