Juan Carlos Munguia
CONTINUOUS IMPROVEMENT CONSULTING

Develop the people who run the operation.

Values, agent and leadership competencies and a career path, so everyone knows what good looks like, how they are rated and how to grow. Agents treat customers the way they are treated. Usually sponsored by HR and people leaders.

Engineering the Employee Experience. One of three standards: People, Customers and Business. The full menu is at jcmunguia.com.

CONTINUOUS IMPROVEMENT CONSULTING

1 · PEOPLE

Develop the people who run the operation.

Engineering the Employee Experience

TEAM · 2 MONTHS Foundation program — Values & career path

Up to 30 people · one team or role family that needs a clear standard

- Values with a five-level behavior scale, built with your leaders
- Competency matrix for up to three roles and one career ladder
- Review format and one pilot cycle
- Managers certified internally as assessors
- One weekly session with you

DEPARTMENT · 4 MONTHS Build program — Reviews & development

30 to 150 people · a department, line of business or client program

- Everything in the Foundation program
- Full agent and leadership matrices, with promotion criteria
- 360 feedback, calibration sessions and one full review cycle
- A development plan for every person; HR partners certified as calibrators
- Fortnightly support

ENTERPRISE · 6 MONTHS Transform program — Talent system

More than 150 people · sites, regions or the whole company

- Everything above
- Company-wide model tied to hiring, promotion and succession
- Competency-based interviews, mentoring, internal coaches and a talent dashboard
- Your HR team certified internally to own the model
- Documented handover and close

Add-ons: workshops in Emotional Intelligence, Time Management, Coaching & Feedback, Stress Management and Meditation. For organizations in Mexico, a NOM-035-STPS-2018 package (psychosocial risk at work).

Three steps.

1. A 30-minute call, at no cost, to understand the problem.
2. Proposal within 5 business days: scope, deliverables, schedule and investment.
3. We start with the data and the tools you already have; I don't ask for new systems.

> If one is needed, it comes with a minimum of 3 to 6 months of implementation to align it, tune it and leave it under control, including my exit transition.

How we work.

Two-month renewable contract, with the package as the horizon and a maximum of twelve months per client.

Remote, with in-person sessions in Mexico City and the option of one week on site per month. Travel outside Mexico City at the client's request and expense.

Confidentiality in writing. Your operation's data doesn't leave and isn't used as an example without your permission. I work in Spanish and English.

Results guarantee. If we don't reach the goals set in your signed plan, within the plan's timeline, you get back all fees paid for the program. It applies when the conditions agreed in the plan are met: access to the data, your team's time and the actions agreed with owners. Full terms in each proposal.

Certifications are internal: they certify competence inside your organization and are not accredited third-party certifications. COPC® is a registered trademark of COPC Inc.; these programs follow practices aligned with its published CX Standard and do not grant COPC certification.

If after a year the operation still needs me, I didn't do my job.
